

FACS Language Tissue Story

Principle and Application of Tissomics

Date: **17th Feb, 2011 (THUR)**

Time: **14:30-17:00**

Venue: **Y301**

Speaker: **Glenn Yang**

Product Manager,
CellBio Biotechnology

MLT Board CPD: 2.5 points

Program Code: 01100021

Tissue section is an important connection between In vitro and In vivo, however, we do not have good tool to rationalization before.

Now TissueGnostics would be a Great Help with published data and applications of TissueFAXS.!

Our presentation consists of:

Why image need to be quantified?

What is the new term of Tissomics?

How to segmentation and separate colors in tissue image automatically?

Why using FACS-like data to display the result beneficially?

Any enquiries, please contact:

Ms. Michelle Ng at 34008601 or

Mr. Felix Tasi at 886-928899397
