

UDS Guideline for Students

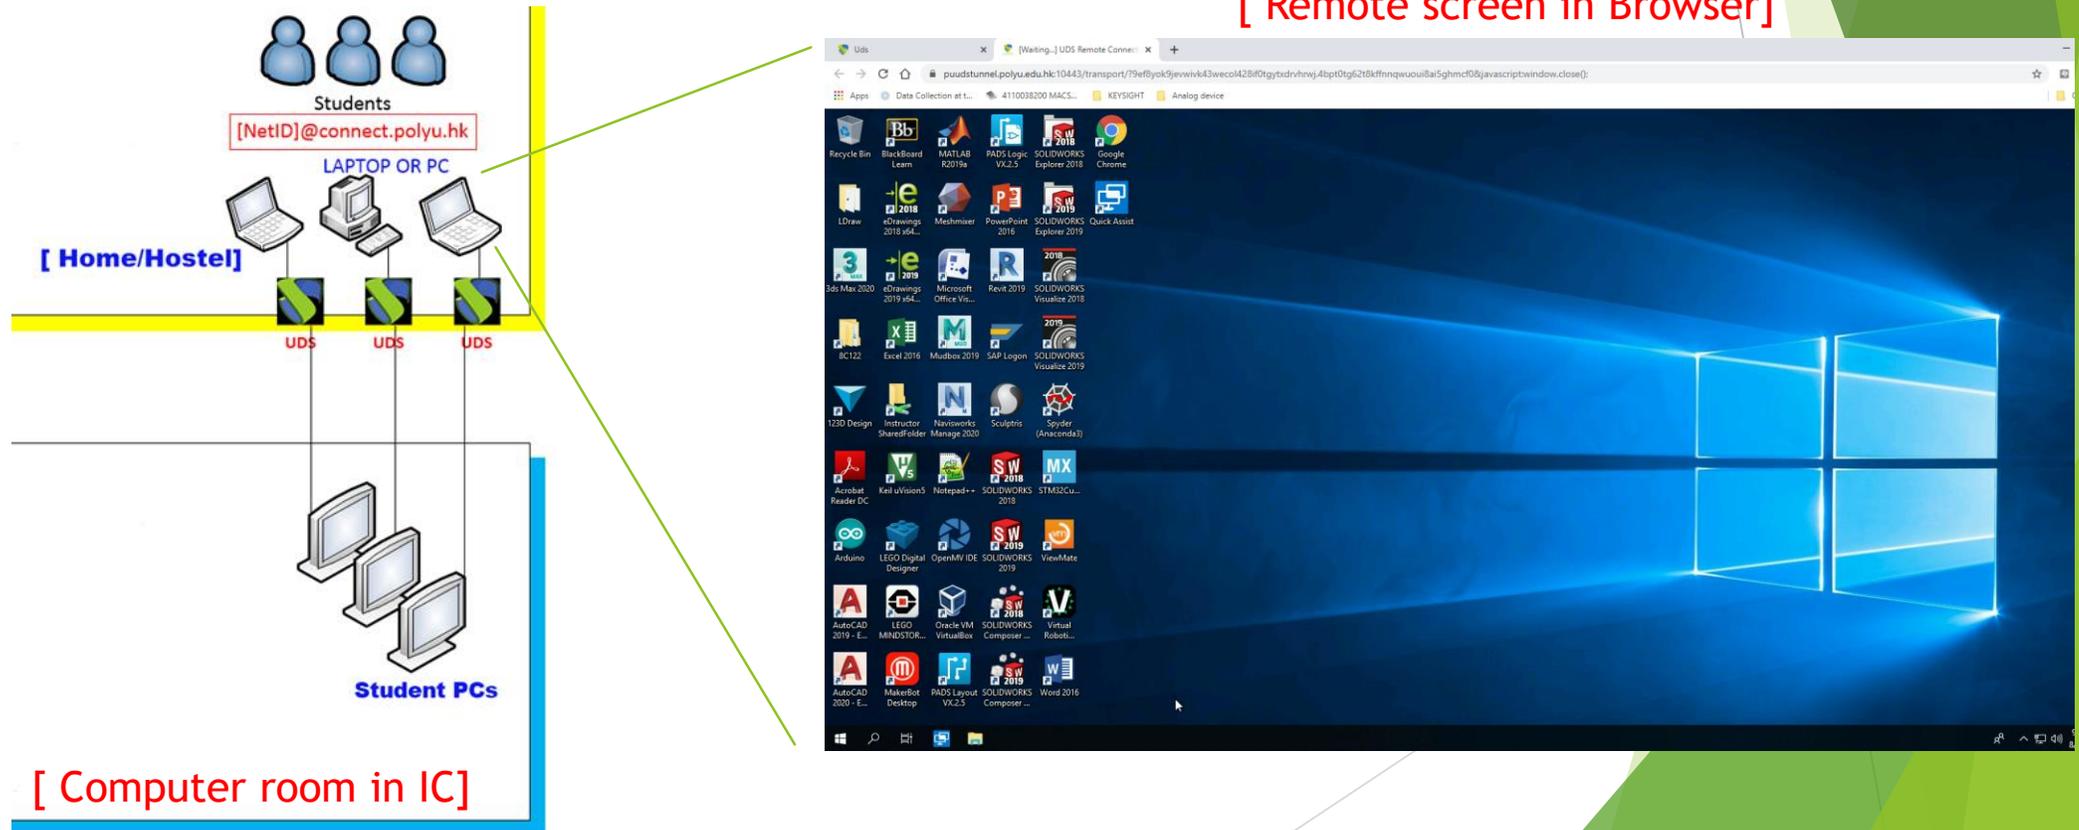

Rev.3

Date: 17 Feb 2022

Revised by TS stream

1. Introduction

- ▶ UDS is the software platform which allows students to remote access the computers of Industrial Centre.
- ▶ Therefore students can use various software like Powerlogic, Solidworks, regardless of the student's own PC capability. All you need is a stable internet connection.

2. Things to prepare

▶ Computer with a Mouse:

Get a computer with a traditional mouse (Left, right buttons and scrolling knob). This kind of mouse is necessary for many software like Solidworks, Powerlogic, etc. Special mice like gaming mouse are not recommended.

▶ A Good & Stable Network

Please make sure your computer is connected to a good and stable network. If possible, use LAN connection.

▶ Close all unused software

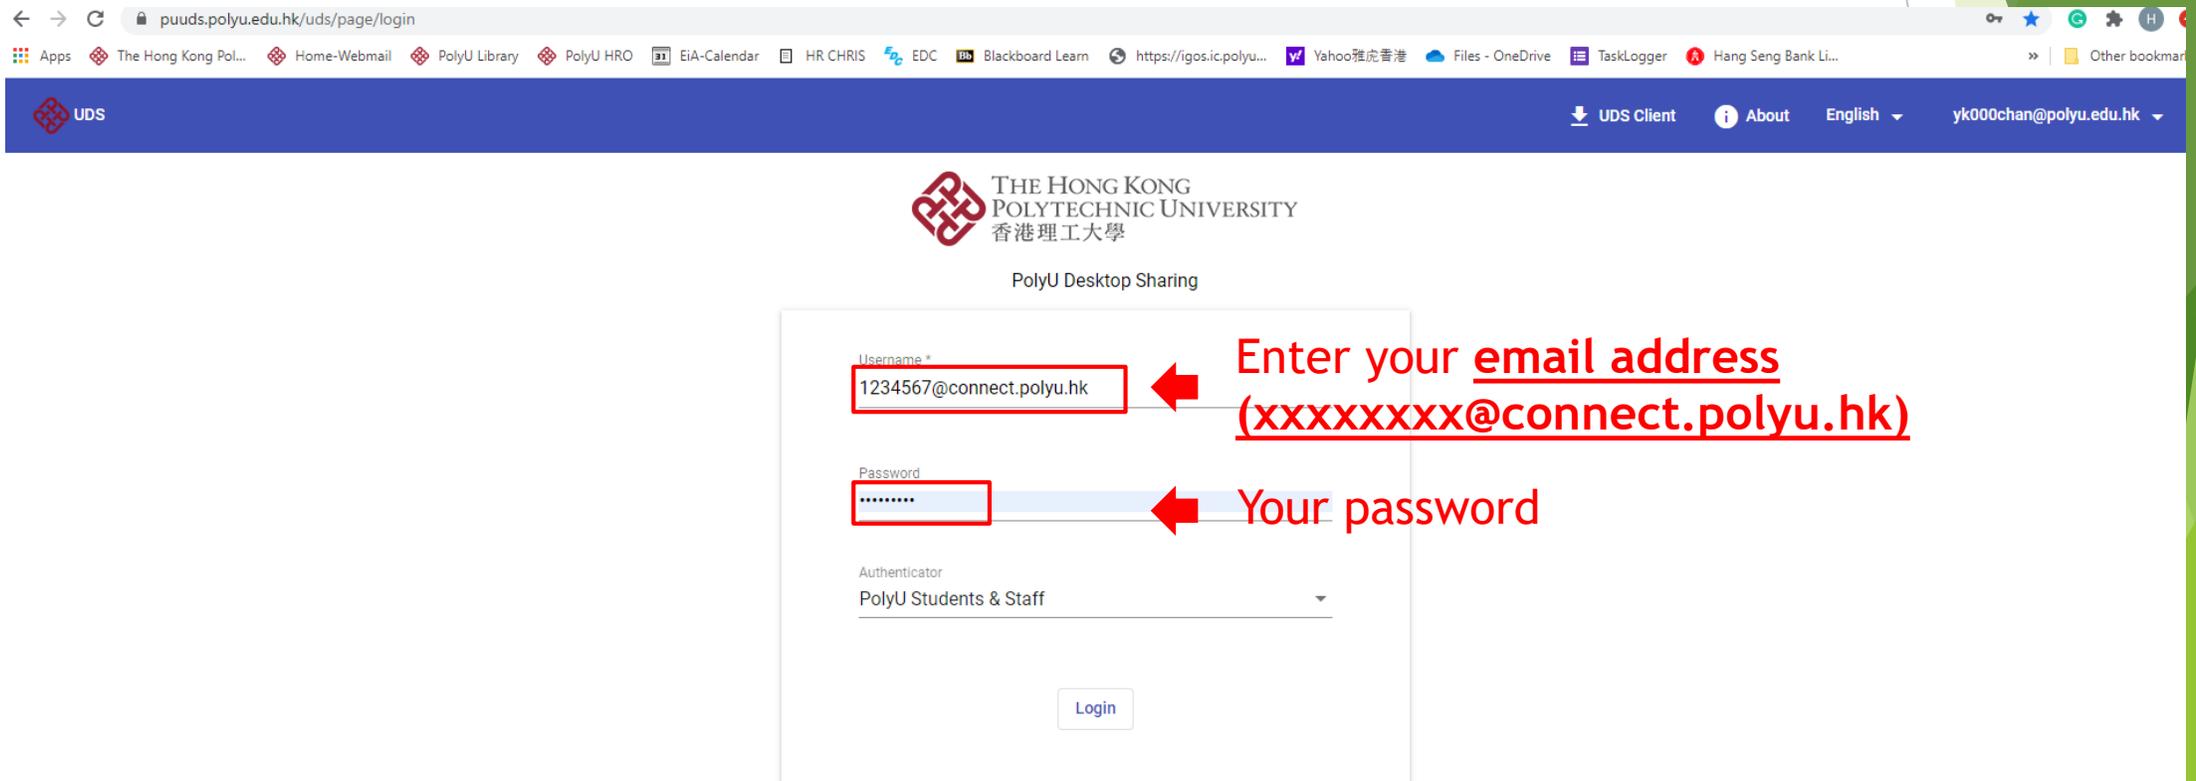

3. Getting Started

Step1- Enter the link in **CHROME** browser : <https://puuds.polyu.edu.hk/uds/page/login>

 Note: if you connect overseas, please install **VPN** and setup VPN connection before access to UDS.

https://www.polyu.edu.hk/its/faq/index_detail.php?id=62

Step2- The following login page will be shown. Please enter your mail account <NetID>@connect.polyu.hk **(must be in lower case)** and then your password.

3. Getting Started (cont'd)

Step3- After successful login, please select the right room for the IC computer access.

Step4- After selecting the room, your browser will show the desktop of the remote PC. Now you can use the PC remotely!

4. Things to Remember

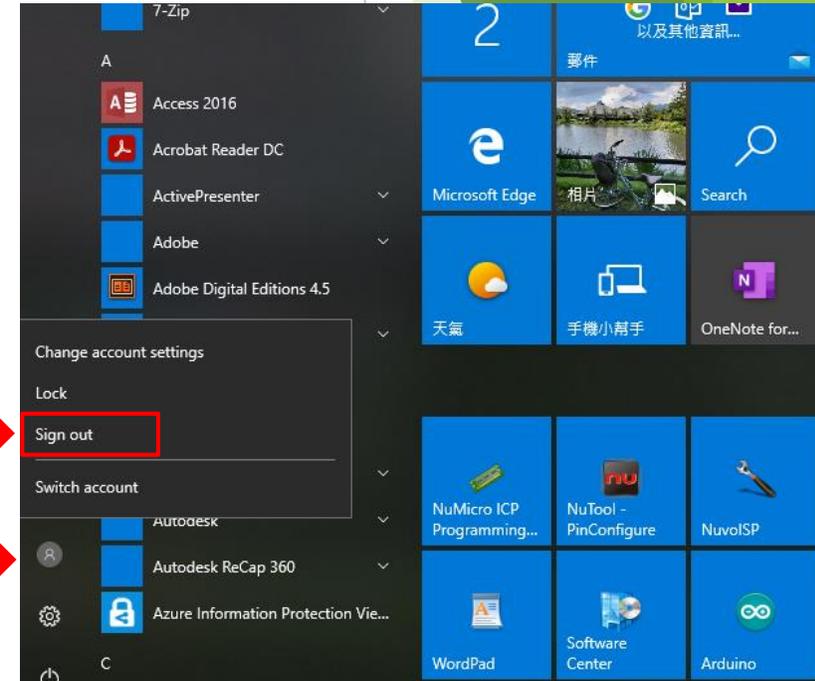

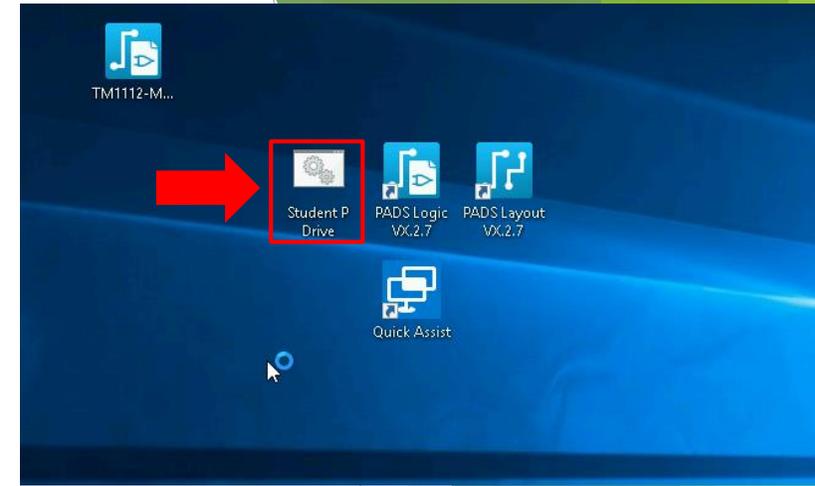

- ▶ Save your work regularly in P drive.

Please use your own network drive P: to save your work by clicking this shortcut. Then enter your ID number and net-password.

Do NOT use local drive. Otherwise, you may loses your work!

- ▶ Always Sign Out after use

Always “Sign out” in Windows toolbar before you leave by clicking the account icon. **DO NOT SHUT DOWN!**

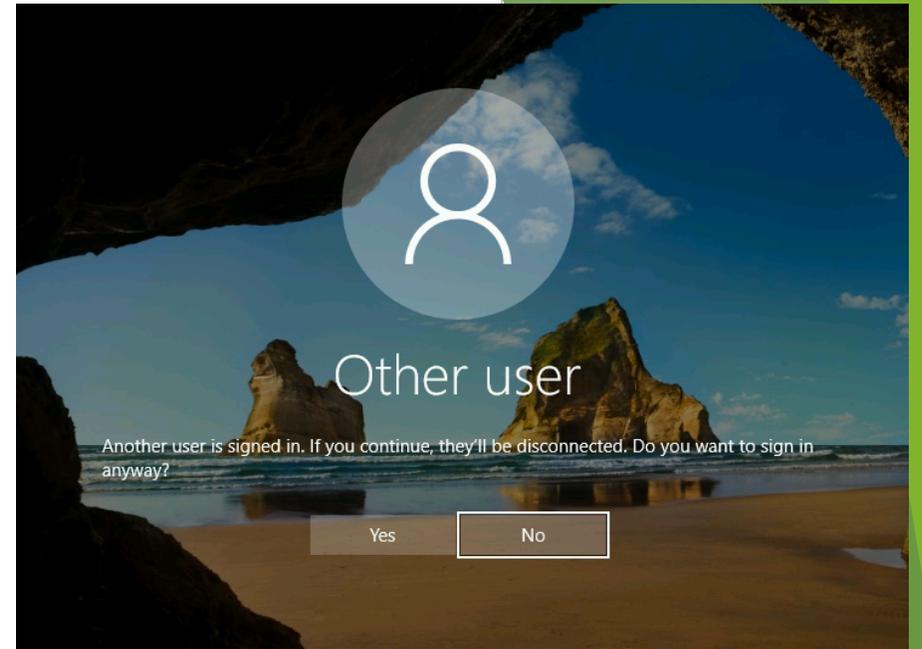

FAQ

- ▶ If the assigned computer is occupied by others..

Please try to connect other computer rooms or access to the same computer room in other time slots within the booking session

- ▶ If you cannot connect to UDS network..

Please contact ITS office for IT support at <https://www.polyu.edu.hk/its/about-its/contact-us/>

Quick Checklist

- ▶ Open the login page at <https://puuds.polyu.edu.hk/uds/page/login> by Chrome browser.
- ▶ If you are connected overseas, please enable **VPN first**.
- ▶ Login by using your PolyU email address in form of **<NetID>@connect.polyu.hk**.
- ▶ Ensure a **good and stable internet connection**.
- ▶ Run at **MS-Windows 10 or MacOS computer with a traditional mouse**.
- ▶ **Close all unused software** in your PC.
- ▶ **Save your work regularly in P drive**.
- ▶ **Sign out** after use.
