

Dear students

Below is the details of the internship opportunities offered by Raymond Industrial Ltd.

RIL is offering 2 student internship positions from the period end of May till end of August 2019.

**Job Description:**

- To assist the establishment of online manufacturing process monitoring system
- To assist the development of data analysis algorithm for process enhancement
- To facilitate the installation of remote sensory device for process monitoring and networking

**Monthly Salary:** HK\$8,000.-

**Target Students:** Year 3 degree students of ISE and PEM programmes

Students are required to work in Nansha China, RIL facility during weekdays Monday to Friday. Transportation will be offered to pick up students at Futian, SZ on Monday morning and bring them back to the same location on Friday. Boarding is also offered on site of the facility.

There are over 10 young engineers working with us who are graduated PolyU and HKUST, so it would be a very energetic team to work with.

Details of RIL can be reviewed at [www.rilhk.com](http://www.rilhk.com).

If you are interested in this position, please contact Dr Gary Tsui by email at [gary.cp.tsui@polyu.edu.hk](mailto:gary.cp.tsui@polyu.edu.hk) or by phone at 3400 3254 on/before **4 Apr 2019**.

Please click [here](#) for other internship opportunities.

Thank you for your kind attention.

Regards

Department of Industrial and Systems Engineering
