Addressing your Unmet Needs through Innovation

We're ITDO 創新及科技發展處

Innovation and Technology Development Office

- Spark innovation
- Turn intractable problems into opportunities
- Promote and educate the recognition and protection of intellectual property
- Encourage technology development of high-impact research
- Materialize the synergy of research and business acumen

激發創新理念，提升對知識產權的認知及保護，建立跨領域科技發展與合作研究的官、產、學、研交流平臺，推動具高影響力研究的發展，解決全球所需。

Innovation 創新

Driven by the unmet needs and intractable problems, innovation contributes to an ever better world by leveraging the novelty and acumen of our genius to continuously exalt the quality of our living.

受社會需求所驅動、以應用為本，以創新拓展科技前沿，造福社會。

Intellectual Property 知識產權

ITDO administers the invention disclosure system for PolyU, nurturing an environment conducive to the flourishing of innovation.

推動理大知識產權的創新管理，鼓勵從跨學科的角度推動知識轉移的發展。

Technology Development 科技發展

Technology Development translates abstract strings of thoughts into outcomes capable of delivering utility to human well-being. We are determined to bring high-impact research to reality through boosting technology development both by the University's individual efforts and leveraging the synergies with collaborators.

透過鼓勵科研夥伴組成策略性聯盟，致力發展具高影響力的合作研究，推動科技發展，提升科研成果的轉化應用。

Strategic Areas 策略性發展領域

Light up the torch of innovation and add fuel to the flame by protecting your IP and collaborating with PolyU
- Tell us your needs!

PolyU Researchers

Equipping your research projects, going to embark on or currently under progress, with a wider exposure of collaborative resources to optimize the impacts, we would like to invite you to share with us your illuminating ideas of great significance to the society.

Our Potential Collaborators

The promising support from collaborators plays a pivotal role in nourishing research with an abundance of tangible and intangible resources, enlightening edge-cutting ventures in innovation and technological advancements. Let's join hands to create a competitive edge for our ventures together.
