Addressing Unmet

Food Safety Needs *through Innovation*

The Food Safety Consortium (FSC) comprises stakeholders from the academia, industry and other organizations to address food safety challenges with cutting-edge & applied technologies, with timely and in-depth communications on food safety related matters.

Our Objectives

- ◆ To create an industry-academia network and to provide support to the industry with advanced technology and science
- ◆ To enhance capability and competence on food safety and its related technology development through academic and industrial collaborations

We Translate Your Ideas into Real Collaborations

Manufacturing

Testing & Services

Retail & Wholesale

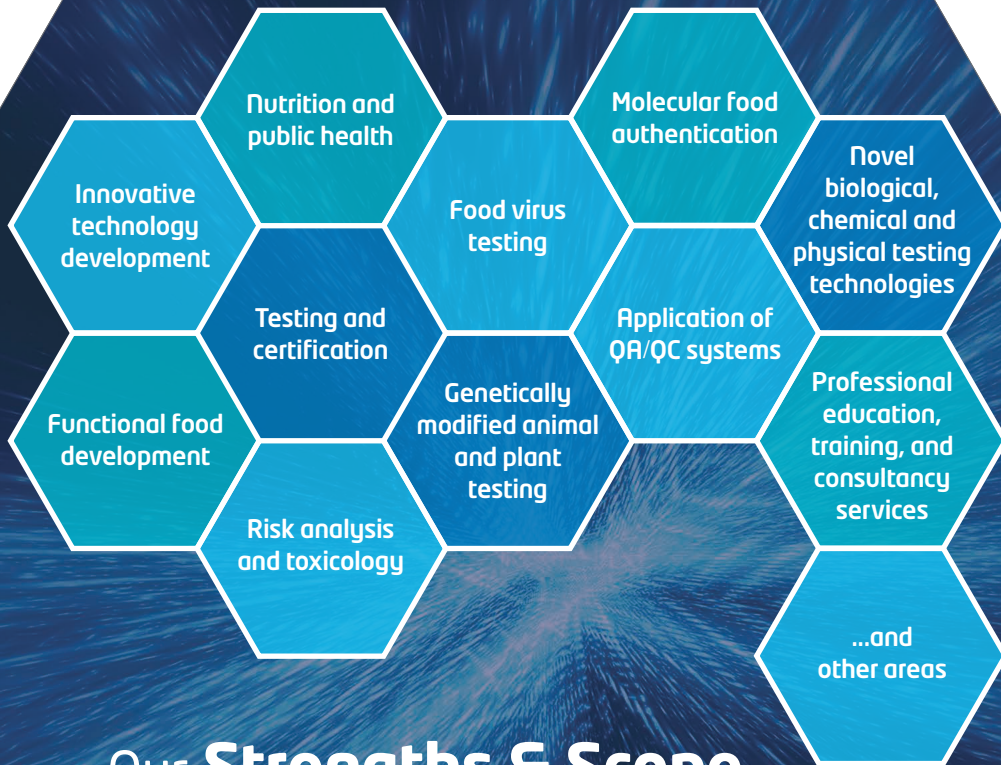

Food Security Management

Catering

The FSC is steered by prominent members of the industry, academia and professional organizations to optimize its capability of advancing food safety with science and technology. Sub-committees encompassing various sectors will each be chaired by members of the Management Committee with the corresponding expertise.

Share your thoughts with us through our regular networking gatherings, industry technology needs assessment workshops, seminars and match-making meetings.

Our **Strengths & Scope**

We are excited to explore how we could assist the industry with our current technologies as well as to collaborate with potential partners in developing new technologies.
