Abstract:

Paper publication in top-tier journals requires not only innovative research itself but also sophisticated writing and presentation skills revealed in papers to clarify the relative contribution of a paper against extant literature. This speech is to share the speaker’s editorial experience in handling papers submitted to, and research experience in publishing papers in top-tier journals in transportation, logistics, supply chain management, and related areas. Furthermore, the speaker provides the overview of Transportation Research Part E, including the journal’s aim and scope, paper review criteria and standards, hot topics and research trends observed from papers submitted to TRE in recent years. The speech is expected to benefit our audiences, particularly for those junior scholars and PhD students, to create innovative research papers, and move toward the ultimate goal of sustainable research career development of scholars.

Bio:
Jiuh-Biing Sheu holds the distinguished professor at National Taiwan University. He is also the Editor in Chief of Transportation Research Part E, Associate Editor of Transportmetrica B, and editorial board member of Industrial Marketing Management.
