

Consulting Engineers • Planners • Managers

Meinhardt is one of the world's few multidisciplinary engineering, infrastructure, geospatial and land survey services and project management non-listed consulting firms employing over 6000 professional staffs in over 60 offices worldwide.

With 1200 staff in Hong Kong and China, we provide a full range of technically feasible and cost effective solutions for buildings, civil infrastructure, rail, highways, aviation and environmental projects.

We are looking for high calibre candidates to fill the following positions:

Assistant Land Surveyor
(Ref: 70225)

Job Duties:

- Assist in general management of projects relating to the development of data validation and checking module for the Survey Data System (SDS), the exploration of Interferometric Synthetic Aperture Radar (InSAR) technology for site monitoring, the enhancement of the digitalized workflow for Ground Penetrating Radar (GPR) surveys of underground utilities assets, and the pilot project for Small Unmanned Aircraft (SUA) docking stations, including steering the project implementation, ensuring achievement and quality of project deliverables;
- Coordinate office procurement exercises, such as conducting market research, preparing contract documents, participating in proposal evaluation and recommendation for offer acceptance;
- Carry out liaison and coordination with Government bureaux and departments (B/Ds), suppliers and services providers to explore on opportunities for collaboration regarding innovative application of surveying; and
- Perform any other duties as assigned by his/her supervisors and to share other workload.

Employment Terms:

- 5 days' work, Mondays (except Public Holidays) 0900-1800 , Tuesdays – Fridays (except Public Holidays) 0900-1745, normally 44 hours per week (including lunch break);
- Work location: Meinhardt offices or government department.

Requirements:

- A qualification recognized by the Hong Kong Institute of Surveyors (HKIS) as satisfying the academic requirements for corporate membership in the Land Surveying Division;
- Completed a 2-year graduate training scheme recognized by the HKIS or equivalent;
- Have Level 2 or above in Chinese Language and English Language in the HKDSE or HKCEE or equivalent;
- Knowledge of and possession of experience in Geographic Information System (GIS) and application development will be advantageous;
- With communication, teamwork, and problem-solving abilities;
- Good command of spoken and written English, Chinese and Putonghua;
- Prefer immediately available or with a reasonable short notice.
