

Media Interview for Harnessing technology to monitor tree stability

Dr Charles Wong, Associate Professor of LSGI, and his research team were interviewed by TVB for his project on Smart Monitoring System for Urban Tree Management in May 2021, which received Gold Medal at Geneva Inventions Expo 2021. The interview was showed on news 創科館 and programme 創科導航. The project was also covered in programme 武測天.

More details of project can be found in coverage at Excel x Impact:
