

OUTSTANDING LSGI ALUMNI AWARD 2014

Winner of LSGI Outstanding Alumni Award 2014 - Prof. Zhiwei Li

Prof. Zhiwei Li, currently the Head of the Department of Geomatics in Central South University, is well reputed for his work in the development of radar remote sensing technologies nationally and internationally. He studied in Department of Land Surveying and Geomatics (LSGI) and received his PhD on Remote Sensing in 2005. He later worked as Postdoctoral Fellow at LSGI in the period of 2005 - 2007.

It is no doubt that Prof. Li is an outstanding researcher that he published extensively in the fields of atmospheric effects on InSAR, filtering methods for SAR interferograms and applications of InSAR in some important scientific fields. He has published over 50 SCI papers with two of which having impact factors above 7. In recognition for his excellent research achievements, he has been bestowed with several research awards, including two First-Class Natural Science Awards from the Ministry of Education of China and one First-Class China National Surveying and Mapping Science and Technology Award.

Congratulations to Prof. Li!
