Alumni Sharing 校友分享

MACL's curriculum attaches great importance to professional knowledge, practical experience and innovation. Strengthening the professional foundation, training in educational practices and linguistic experiments, and keeping the spirit of "stay hungry, stay foolish", all these factors above are essential for my career planning. My experience in MACL has driven me to continually pursue knowledge in the field and prepared me well to meet the demands of my career.

中國語言學專業的課程設置兼顧了知識性、實踐性和創新性。在一年半的學習中，我既得到了知識上的提升，也獲得了實踐中的經驗。夯實專業基礎、培養實操能力和保持求知精神，這些因素對我的職業規劃和確定發展方向有很大幫助。

The MACL programme is highly interdisciplinary, enabling me to acquire knowledge and research methodologies in fields such as language testing, special education, and neurolinguistics, thereby broadening my horizons and providing numerous opportunities. Additionally, this programme has exposed me to cutting-edge technologies including EEG and fMRI, rendering linguistics research both intriguing and practical. Although I was involved in the MACL programme for a duration of only one year, it facilitated my comprehension of the transition from linguistics to psychology and permitted me to conduct research across diverse disciplines. Moving forward, in my doctoral studies, I am committed to engaging in research within the domains of psycholinguistics and cognitive science, areas that I am deeply passionate about.

MACL項目極具學科交叉特色，讓我學習到了語言測試、特殊教育、神經語言學等方向的知識和研究方法，給予了我更廣闊的視野和機會，並接觸到了如EEG、fMRI等許多前沿技術，讓語言學變得非常具有趣味性和實操性。

雖然只有短短的一年學習時間，但MACL項目促使我實現了從語言學到心理學的轉變，得以進行跨領域研究。在即將開始的博士學習階段，我將繼續從事我喜歡的心理語言學與認知科學的研究。
