About *Para Site*

Para Site is Hong Kong's leading contemporary art centre and one of the oldest and most active independent art institutions in Asia. It produces exhibitions, publications, discursive, and educational projects aimed at forging a critical understanding of local and international phenomena in art and society.

Founded in early 1996 as an artist run space, Para Site was Hong Kong's first exhibition-making institution of contemporary art and a crucial self-organised structure within the city's civil society, during the uncertain period preceding its handover to Mainland China. Throughout the years, Para Site has grown into a contemporary art centre, engaged in a wide array of activities and collaborations with other art institutions, museums, and academic structures in Hong Kong and the international landscape. In early 2015, Para Site moved to greatly increased premises, in North Point/Quarry Bay. Para Site's activities are made possible by the generous support of its patrons, and grants from foundations and the Government of the HKSAR.
