Service Project	
What will students do to serve?	Students will be divided into inter-professional teams of about 10 each group. Students are required to meet and plan the service learning projects in interactive tutorial sessions. They have to communicate directly with the community organization, and plan and conduct the projects under the guidance of mentors, who may be an academic staff from one of the FHSS depts. Examples of projects include conducting health education talks for elderly with cognitive impairment, assessment of balance and mobility for elderly, organizing health assessment for people with physical and mental disabilities (e.g. measuring blood pressure, weight and height etc), designing exercise programmes and organizing recreational activities for people with disabilities
Whom will students serve?	People with physical/mental disabilities and the elderly community
Where will students serve?	Hong Kong
When will students serve?	Sep 2014-Dec 2014. During weekdays or weekends, depending on the availability of the targeted service users
