Food Safety Consortium Convener Professor Terence Lau receives the 2021 IAFP International Leadership Award

Steering one of the most representative food safety organizations in Hong Kong to promote food safety and quality, the Convener of Food Safety Consortium (FSC) of The Hong Kong Polytechnic University (PolyU) Professor Terence Lau was granted with the 2021 International Leadership Award by the International Association for Food Protection (IAFP).

FSC was initiated by Prof. Lau in 2015 and is now home to 70 Corporate Members. It is the first and only non-governmental organization Observer from Hong Kong and mainland China at the FAO/WHO Codex Alimentarius Commission and bears the regional responsibility to IAFP's mandate of Advancing Food Safety Worldwide.

"Food safety is a major public health concern. Given the new challenges arising in this domain every day and the fact that the practices of the global food supply chain have shifted since the pandemic, we still have much to accomplish," said Prof. Lau.

Prof. Wing-tak Wong, Deputy President and Provost of PolyU and member of Steering Committee of FSC, reaffirmed that embracing global collaborations to foster progress in food safety and quality is a strategic focus for PolyU. This recognition from the IAFP is a significant endorsement for Prof. Lau's achievement in the field.

ABOUT US

FSC

The **Food Safety Consortium (FSC)** comprises stakeholders from the academia, industry and other organizations to address food safety challenges with cutting-edge & applied technologies, with timely and in-depth communications on food safety related matters.

FSTRC

Food Safety and Technology Research Centre (FSTRC) serves as a platform to strengthen local and international collaborations. Our goal is to safeguard public health and rebuild public confidence by applying cutting-edge skills and tools in research, risk analysis and assessment and offering one-stop food-related services.

DISH

DISH Global Centre for Food Safety and Quality (DISH) is a unique, non-profit platform founded by four economies - Denmark, Italy, Sweden, Hong Kong to foster European - Hong Kong/China - Asia

Pacific collaborations in food safety. The Centre aims to translate cutting-edge innovations and into high quality applications through research, development, exploring collaborations and technology transfer.

ADDRESSING UNMET FOOD SAFETY NEEDS THROUGH INNOVATION
