Director, Fenix Group Holdings Limited

# Message from Professor Erin Cho

Dean, School of Fashion and Textiles  
The Hong Kong Polytechnic University

*Erin Cho*

On behalf of the School of Fashion and Textiles (SFT), it is my great pleasure to welcome you to the PolyU Fashion Show 2023. Every year, we have the privilege of hosting the PolyU Fashion Show, which showcases emerging talents among our graduating students. The Show is one of the most highly anticipated events in the local fashion industry. The long-standing tradition of this event continues this year, where a total of 30 collections from graduating students in our flagship programme, the BA (Hons) Scheme in Fashion and Textiles, will be presented, including 13 students who majored in Design, 7 students in Knitwear Design and 10 students in Intimate Apparel and Activewear.

SFT has the most distinctive excellence in fashion education, nurturing high-calibre fashion students with creative talents and global perspectives. Our students have access to state-of-the-art facilities, a diverse and experienced faculty, and a vibrant creative community that fosters their growth as independent designers, thinkers, leaders, and entrepreneurs. They are also given the opportunity to engage with different cultures and styles, techniques and methods, and innovative ideas. Their

collections have therefore integrated the skills and knowledge they have obtained in their academic journey at SFT, together with their integrative interpretations of issues facing the world.

This year's fashion show is a testament to their hard work, dedication, and passion for fashion.

We hope that our young talents will pursue successful careers on the international fashion stage, and we look forward to seeing how they define new aesthetics and push the boundaries of what fashion is and what fashion can do.

Finally, I would like to take the opportunity to express our appreciation for the support of our alumni and industry partners, which has been an integral part of this event and the education at SFT. I have to keenly acknowledge that the Show cannot be put together without the great efforts of our staff members and students. I would also like to convey my sincere gratitude to all our sponsors and judges for their support and time. Your contributions and involvement play an important role in enabling the School to continue to prosper, advance, and have a positive impact on society.

Hong Kong Intimate Apparel Industries' Association

香港內衣業聯會  
HKIAIA

“

## MESSAGE FROM HKIAIA

It is the great honour for HKIAIA to support the PolyU Fashion Show 2023 organized by the School of Fashion and Textiles (SFT) of the Hong Kong Polytechnic University (PolyU).

HKIAIA truly appreciates that SFT, after being upgraded from Institute of Textiles and Clothing (ITC), has continued to contribute to the nurture and educational development of the young talents for our fashion industry. Being one of the major local annual fashion events, the PolyU Fashion Show has been providing the new generation a valuable chance to showcase their capacity, creativity and practical knowledge for fashion, knitwear, intimate apparel and activewear, as well as to connect with the industry players for exploring their career prospects in this field. It has been a pleasure and excitement to see the graduates' collections with their innovative works that combine both aesthetic and functional elements. We are looking forward to meeting the new young talents with their amazing passionate designs this year and welcoming them to the intimate apparel industry.

HKIAIA is pleased to explore collaboration opportunities with PolyU SFT again in the coming future in order to continue to encourage and support the next generation in all ways.

At last, we wish a big success to the PolyU Fashion Show 2023 and may the graduates grow with the Intimate Apparel Industry!

”

## ABOUT

Hong Kong Fashion Designers Association (HKFDA) was founded in 1984 by a group of successful and enthusiastic local fashion designers. As a non-profit making and self-financed organization, it aims to unite fashion designers, with both professionalism and expertise, to develop and better both their careers and the industry within and beyond the territory. With continuous support from the industry and fellow designers in the past 39 years, the Association is reputed not only as an official organization of Hong Kong fashion elites who provide expertise services, it is also recognized as one of the leading fashion organizations in Hong Kong, mainland China and other cities in the South Pacific Region. Highly applauded by the public and the media, the most renowned and recognized annual events held by HKFDA are our shows and exhibitions such as "The Fashion Visionaries" and "JUXTAPOSED", Fashion Atelier Certificate Programme, as well as the Ten Best Dressed Personalities Award.

## AWARDS FOR FASHION GRADUATES

Besides dedicating the efforts in the commercial sector, HKFDA continuously contributes to the Fashion Design academic bodies in Hong Kong, such as the Hong Kong Polytechnic University (PolyU); Hong Kong Design Institute (HKDI); Technological and Higher Education Institute of Hong Kong (THEI); and Caritas Bianchi College of Careers (CBCC), by offering HKFDA Young Talent Awards and Creativity Awards to outstanding students. These awards are selected annually by the HKFDA judging panels from their respective graduation fashion shows. Furthermore, HKFDA also organizes fashion seminars and discussion groups to incubate them for their entries to the Fashion Industry.

## BE A MEMBER OF HKFDA

HKFDA offers memberships solely to well-established designers with solid fashion design background and relevant academic qualifications; or to those recommended by our existing members. Outstanding fresh design graduates would also be invited to join the Association to add new design force to the fashion industry.

Flinders Merino represents a group of Merino woolgrowers running sheep properties in the Flinders Ranges region of South Australia.

The Flinders Ranges is approximately 1,350,000 square kilometres and is located 400 kilometres north of Adelaide.

The wool growers utilise best practice and care when producing wool. Environmental and ethical standards all assist in forming the base of successful and sustainable living in the rolling hills and flats of the beautiful Southern Flinders Ranges of the Australian inland.

The concept aims to build on the natural wool-growing attributes to ensure benefits are delivered to customers.
