LABORATORY FOR ARTIFICIAL INTELLIGENCE IN DESIGN LIMITED

Project Associate (several posts)
[Appointment period: 12 months initially, with possibility of further appointment]

Duties

The appointees will assist the project leader in the research project – "Intelligent Garment Inspection System". The appointees will assist in:

(1) liaising with collaborating companies in the industry for collecting their requirements and arranging testing.
(2) testing the system prototypes developed by the project team in real life manufacturing environment.
(3) participating in trade shows to promote the technology
(4) documenting the testing performance of the system prototypes in trial sites.
(5) performing any other duties as assigned by the project leader or his delegates.

Qualifications

Applicants should have an honours degree in fashion, textiles, or other related disciplines with solid knowledge of textile materials, garment and textile manufacture.

Applicants are invited to contact Prof. Calvin Wong at calvinwong@aidlab.hk for further information. Please return the completed application form, together with a detailed curriculum vitae, to the AiDLab by email to career@aidlab.hk. Application form can be downloaded from here.

Remuneration

A highly competitive remuneration package will be offered. Applicants should state their current and expected salary in the application.
