Service Project																
What will students do to serve?	<p>The subject adopts the 'positive youth development' paradigm to enhance the competence, resilience, and positive self-concepts of underprivileged children and adolescents. PolyU students develop and implement educational and supportive services, such as interest workshops, tutorial classes, or self-help learning packages, for these individuals. The mode of service delivery, whether online or face-to-face, will depend on the local outbreak situation and related preventative policies.</p> <p>Students will engage the recipients through group activities to better understand their needs and explore their strengths and potentials. The aim is to foster a sense of achievement and aspiration among the children and adolescents, and to encourage further development of their potentials.</p>
