Job Opportunities for Graduates (2024)

99.4%

Employment Rate

Serving Organizations

92.9%

Hospital Authority

4.3%

Private Hospitals

2.8%

Others (e.g. government departments, health industries, etc.)

To date, the School produced 17,000+ alumni to excel and hold senior positions in the hospitals, education field and the government, forming a strong network to contribute to the pursuit of excellence in the nursing practice, and serve as great supporters to alma mater and mentors to our students and fresh graduates.

Programme Aims and Characteristics

Programme Aims

- To educate students for preparing them to build their professional careers in nursing
- To develop students' competency in providing quality care and embarking on research initiatives
- To prepare students for contributing to the health of the community
- To nurture students to become competent registered nurses, critical thinkers, effective communicators, innovative problem solvers, lifelong learners and ethical leaders

Academic & Learning Excellence

- Innovative Learning: XR (Extended Reality)-assisted experiential learning, Smart Learning with AI, flipped classrooms, and seamless theory-to-practice training
- Simulated Clinical Experiences (SCE)
- Capstone Projects & Service-Learning
- Electives in Chinese Medicinal Nursing
- Inter-professional Training

Global Outreach Opportunities

- Global Exposure: Student exchanges & overseas placements (Asia, Europe, North America) with sponsorship
- Global Leadership Development

Hands-On Clinical Experience

- Diverse Clinical Placements: Public/private hospitals, community centers, nursing homes

Support & Development

- Mentorship & Career Support: Guidance and resources for career success in nursing profession

Scholarships & Financial Support

- Financial Assistance: Scholarships to support academic and professional goals

Programme Curriculum

Year 1

- Public Health and Infection Control
- Fundamental Concepts of Health & Nursing
- Sociology of Health
- Applied Psychology
- Human Anatomy
- Human Physiology

Year 2

- Fundamentals of Nursing Therapeutics I
- Fundamentals of Nursing Therapeutics II
- Pathophysiology and Pharmacology
- Information and Communications Technology in Nursing
- Clinical Microbiology
- Nursing Therapeutics I

Year 3

- Child and Adolescent Health Nursing
- Nursing Therapeutics II
- Childbearing and Family Nursing
- Fundamentals of Mental Health Nursing
- Caring Concepts
- Nursing Therapeutics III

Year 4

- Gerontological Nursing
- Ethical and Legal Aspects in Health Care
- Nursing Research
- Fundamentals of Chinese Medicinal Nursing
- Community Health Nursing
- Nursing Therapeutics in Chinese Medicine
- Honours Project

Year 5

- Nursing Therapeutics IV
- Leadership Roles and Management Functions in Health Care
- Honours Project

TCM Elective Subjects

- Acupuncture, Moxibustion, and Tuina of Chinese Medicine
- Internal Chinese Medicine
- Clinical Studies of Chinese Medicine

Year 2-5

- Clinical Studies

State-of-art Facilities

Cutting-Edge XR Technology Assisted in Education

- XR-assisted simulations with stereoscopic 3D pop-out effects, tactile feedback, and immersive clinical environments.
- Virtual Hospital: A proprietary VR system with 1,200+ randomized scenarios, replicating multi-bed wards, clinical pitfalls, and urgent decision-making to hone prioritization and multitasking skills.

Simulated Clinical Experiences (SCE)

- Realistic hospital settings with high-tech manikins to bridge theory and practice.

Smart Learning with AI

- Adaptive algorithms personalized training, provide real-time performance analytics, and simulate responsive patient interactions for skill-building

Active & Authentic Learning Strategies

- Flipped Classrooms
- Student-centered activities to maximize engagement and outcomes

Education Excellence

1. Service-Learning Initiatives

- Real-World Application: Integrate nursing skills into community service (local & international, e.g., Cambodia, Indonesia).
- Social Responsibility: Broaden perspectives while addressing healthcare disparities.

2. Award-Winning Internationalization at Home (IaH)

- UGC Teaching Award 2023: Recognized for innovative online student exchanges with global peers.
- Global Impact: Over 1,100 students engaged in IaH projects, summer programs, and cross-border collaborations.

Career Enhancement

Clinical Education

- Provide placement opportunities in various settings including general hospitals, mental hospitals, elderly homes, psychiatric rehabilitation units and community rehabilitation sectors of non-governmental organisations
- Organise pre-clinical workshops and clinical enhancement workshops to sharpen students' knowledge and skills
- Students are supervised by experienced clinical instructors and supervisors of the hospitals and PolyU SN

Departments / Units for Clinical Placement (General Nursing)

- Medical and Surgical Nursing
- Primary Healthcare
- Accident and Emergency
- Child and Adolescent Health
- Childbearing Family Nursing
- Community Health
- Gerontological Nursing
- Mental Health Nursing
- Operation Theatre

Professional Recognition

- Graduates are eligible to apply for registration as Registered Nurses (General) with the Nursing Council of Hong Kong.

Student Exchange Programmes

Offshore Student Exchange Programme and Clinical Placement

- Partners with leading global universities to enhance students' international experiences

Global Nursing Leader Distinction

For top DSE scorers in BSc Nursing (JS3648) or Mental Health Nursing (JS3337)

Exclusive Opportunities

Global Exposure

- Internship or study trip at WHO Collaborating Centres (Europe/North America/Australia)
- Up to two international exchanges with clinical visits

Advanced Pathway Support

- Earn six transferable credits toward PolyU's MSc in Nursing
- Mentorship from senior staff & alumni for clinical/academic/entrepreneurial careers

Unique Credentials

- Certificate of Global Nursing Leader Distinction
- Specialization in Traditional Chinese Medicinal Nursing (TCM) and North America practice opportunity

Eligibility

- Top DSE scores in Nursing/Mental Health Nursing
- Maintain cGPA ≥ 3.2 throughout the study
