ANS	90%	73%	<ul style="list-style-type: none">- B Nursing- BSc Community Health Practice- BSc Public Health- BSc Mental Health Nursing- BSc Occupational Therapy- BSc Applied Biology – Biotech- B Ed Early Childhood Education
HDHHPA	71%	50%	<ul style="list-style-type: none">- B Nursing- BSc Global Health & Development- BSc Information Management- BSc Community Health Practice- BSc Gerontology- BSc Public Health- Integrated BBA / BBA- B Applied Ageing Studies & Service Management- B Language & Speech Services- B SSc Health & Social Services Management- B Health Education- B Ed General Studies/Math

Useful/Suggested facilitation

- Hold bi-annual meeting with all sub-degree health related programs to touch base of any potential changes, to address major concerns and challenges
- Address practicum concern: in COVID-19 period, hospital-setting practicum is very difficult to secure for sub-degree students in recent years
- Deliberate criteria for credit transfer/course exemption for health related programs; e.g. Matching the contents and achieving certain GPA
- Discuss criteria for credit transfer/course exemption for other related programs, such as AD in Science, AD in Biomedical Sciences, AD in Chinese Medicine etc.

THANK YOU!
