

SYA Project Credit Transfer Webinar Series – Communication Mechanism between Institutions (Local Session)

Voices from PolyU HKCC Programme Leaders

Mr Tony KWOK

Programme Leader

Associate in Bilingual Communication

(tony.kwok@cpce-polyu.edu.hk)

Communication with Universities: Regular Channels

Formal

- HKCC's **Articulation Partner's Feedback**
 - Conducted *annually* (in summer)
 - Collected via *Questionnaire Survey* (to most articulation partners based on the statistics in Graduate Survey)
 - Collected via *Interview* (usually with ONE UGC-funded and ONE SF)

Informal

- **Graduate Sharing Session** in different programmes (to current AD/HD students)
 - AD/HD graduates share with current students (and teachers) updated study arrangements in universities

Communication with Universities: Course Offerings / Transfer

- For *GE (General Education)* subjects (language, mathematics, critical thinking...)
 - **College \leftrightarrow University**
 - The agreement (MOU) would apply to most AD/HD programmes
- For *DS (Discipline-Specific)* subjects
 - **Scheme/Programme \leftrightarrow Programme**
 - Work on arrangements of specific programme(s)

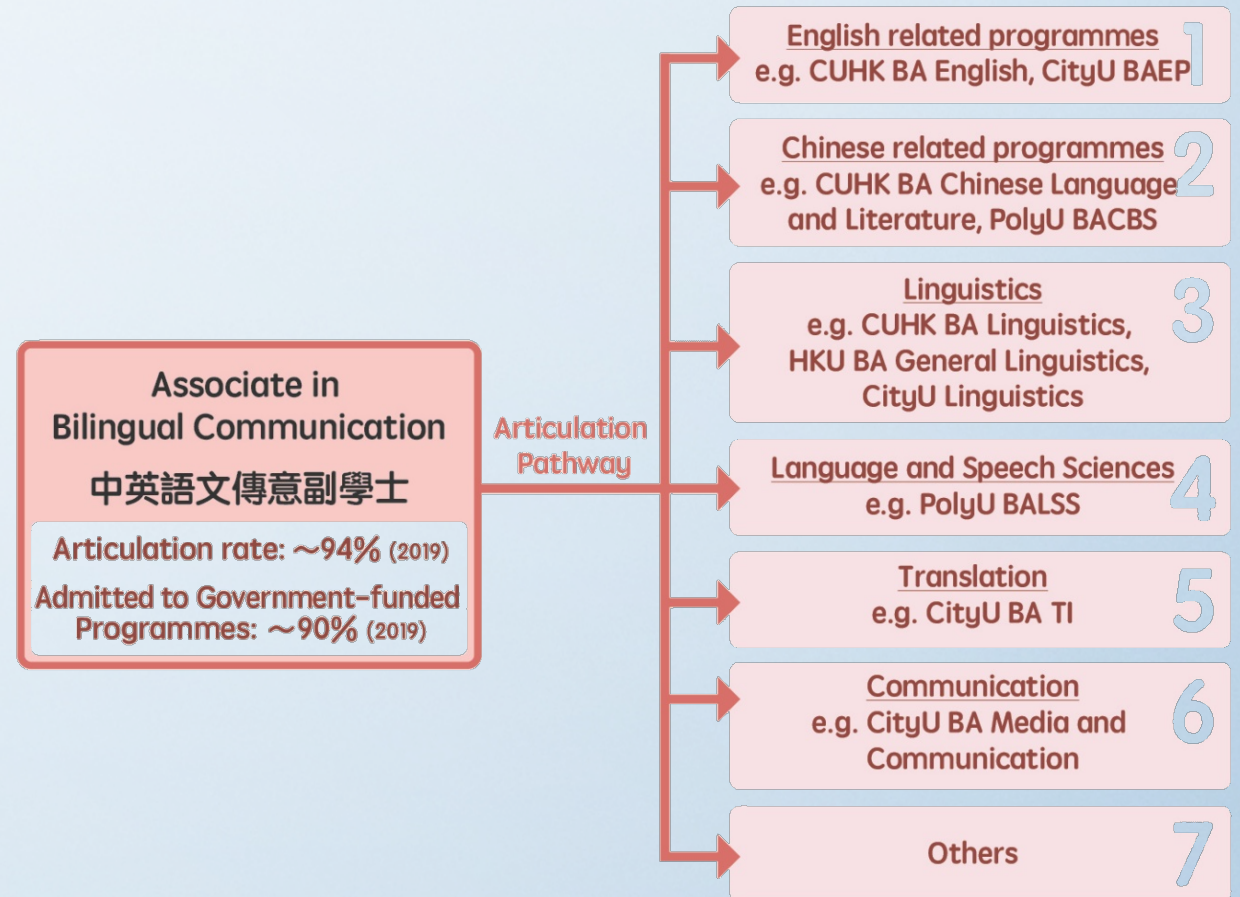

Communication with Universities: Programme Restructuring

Before restructuring a programme, AD/HD institutions would usually

- Collect data via questionnaire survey to current students, graduates and PLs in UG programmes
- Conduct interview with major articulation partners
- Seek advice from external Academic Advisor

Communication with Universities: Challenges for AD/HD Institutions

- Many AD/HD programmes were designed for students' articulation in various disciplines
- Within the same discipline, there are many UG programmes in the market
- The population in each AD/HD programme may not be large
- While the AD/HD programme structure should be fit for articulation into universities (SY), there are difficulties in aligning outcomes to one specific programme
