

Outstanding Student of Faculty

**Outstanding Student of
Faculty of Humanities**

JU Tianqi

Bachelor of Arts in Linguistics and Translation
Department of Chinese and Bilingual Studies

"If erasing any moment in my life, I would not have become the person I am today."

I don't regard myself as a stereotypical perfect student, overflowing with talents, energy, and determination. I have my moments of laziness, anxiety, and procrastination. However, I have always been clear about what I want. Choosing to study in my Department has been one of the best decisions I have made. Pursuing subjects that genuinely pique my curiosity brings me joy, even though it also presents its own set of challenges. In the face of these obstacles, I have always given my best effort to overcome them and ensure that I have no regrets, even if I was required to step out of my comfort zone.

Being selected as an Outstanding Student not only boosts my confidence but also validates the hard work and dedication I have poured into my academic journey. It also serves as a constant reminder of the progress I have made and the problems I have successfully overcome. In moments of doubt that may arise in the future, I will reflect on this achievement and draw strength from it, knowing that I have the ability to conquer any challenge that comes my way.
