

Outstanding Student of Faculty

Outstanding Student of
Faculty of Science

WANG Yidong

Bachelor of Science in Engineering Physics
Minor in Applied Mathematics
Department of Applied Physics

University life indeed serves as a preparatory phase for entering the real world, where every decision matters. Transitioning from an inexperienced freshman to a sophisticated senior, I encountered challenges and made mistakes, but I managed to navigate challenges as I progressed.

The exchange and community service programmes, particularly the academic exchange at North Carolina State University in the USA, broadened my global outlook and deepened my understanding of diverse cultures. The connections formed through social service events were equally transformative. Interacting with a spectrum of interesting and like-minded people enhanced my personal development and instilled in me a collaborative team spirit. These relationships have shaped me into a more empathetic and culturally attuned individual, prepared to make meaningful contributions to society.

Reflecting on my time at PolyU, I am deeply grateful for the nurturing environment that facilitated my academic and personal development. I attribute the Outstanding Student Award to my relentless pursuit of knowledge and the university's support in fostering independent thinking. In conclusion, PolyU has served as an incubator for profound growth and has provided me with lifelong connections that I hold dear.

Achievements / Awards:

- Recipient, Presidential Student Leadership Award of Department 2023/24
- Recipient, HKSAR Government Scholarship Fund – Scholarship for Outstanding Performance 2022/23 & 2023/24
- Recipient, HKSAR Government Scholarship Fund – Reaching Out Award 2022/23
- Intern, China Merchant Bank, Shanghai, China 2022/23
- Intern, King Abdullah University of Science and Technology Remote Internship Program 2022/23
- Participant, Academic Exchange at North Carolina State University, USA 2022/23
- Peer Mentor, Peer Mentoring Scheme 2022/23
- Mentor, Department of Applied Physics Senior Buddy Program 2022/23
- Volunteer Tour Guide, Community Service project organised by PolyU Service-Learning and Leadership Office 2022
- Recipient, Commercial Radio 50th Anniversary Scholarship 2021/22
